**CLASS-LEADING
AIR SEAL**

**OEM EQUIVALENT
EQUIPMENT FIT**

GMI Wheels' **FTF SERIES** machined wheels roll ahead of the class in air seal, tire life and quality, significantly reducing component movement for long term reliability and cost savings.

Built for the extreme duty applications faced by the CAT 797F, the **FTF SERIES WA7-6344-AM02-D** (59/80R63) exceeds OEM quality, yet retains standard fitment for seamless installation and performance.
