

ToughEye-1700™ Rugged Self-Cleaning Cameras Continuous Clear Vision With Zero Maintenance

Using our patented self-cleaning technology the TE-1700™ sees clearly through abrasive dust, bitumen, mud, oil, potash, and more without the use of water, detergents, or compressed air.

Incorporating a rugged single-piece design and our field-proven and innovative ClearSight™ technology, the ToughEye™ family of cameras offer crystal clear vision with complete reliability and zero-maintenance.

- ✓ Self-Cleaning without Interruption of View
- ✓ Zero Maintenance, Self-Sufficient
- ✓ Extreme Temperatures
- ✓ Suitable for Size-Restricted Applications
- ✓ Uses Existing Cabling (PoE+)
- ✓ Highly-Corrosive Environments ie. Potash
- ✓ Built Tough to Endure Impact, Vibration, Shock
- ✓ Priced for Maximum Value

Reduce Asset Damage

Prevent Shutdowns

Continuous Clear Vision

Increase Safety
Reduce Downtime

Unparalleled situational awareness and visibility of fixed and mobile equipment. Compact and simple to install. Zero maintenance.

Effortless, Continuous
Visibility for Remote
Monitoring and Teleoperation

Maximize the value of remote monitoring by eliminating in-person camera maintenance, and confined space work.

Optimized Vantage Point in
Extreme Dust

Our rugged design allows you to mount your camera close to the target to reduce the dust barrier. You no longer need to keep the camera away from dust, or require access for maintenance.
